Presently, the UPI Lite app can only hold a maximum of Rs 2000 at a time.

UPI Lite was introduced in September 2022 to enable small value digital payments in a quick and seamless manner through an on-device wallet.

To encourage wider adoption of UPI Lite, it is now proposed to bring it under the e-mandate framework by introducing a facility for customers to automatically replenish their UPI Lite wallets if the balance goes below the threshold limit set by them.

## **Reserve Bank of India to Establish Digital Payments Intelligence Platform**

The Reserve Bank of India (RBI) announced creating a dedicated platform to address digital payment frauds in India.

To advance this initiative, the RBI has formed a committee chaired by Shri A.P. Hota, former MD and CEO of NPCI, tasked with examining various aspects of setting up a digital public infrastructure for the Digital Payments Intelligence Platform.
