DEFENCE

IAF Develops 'Vayulink' Platform

- The Indian Air Force has developed an innovative solution 'Vayulink' that would aid pilots in dealing with bad weather and also provide jammer-proof uninterrupted communication with the base station.
- The data link communication uses the Indian Regional Navigation Satellite System (IRNSS) that is also known as NAVIC, to send radio communication to the base station when the signals are low.
- When the planes are flying close to any friendly forces on grounds during a combat situation, the aircraft display gives the position of such forces on the ground including tanks and troops beneath.
- The IAF has put up a gallery on Vayulink to provide information about its platform at the India Pavilion in the ongoing Aero India 2023.
