# SCIENCE & TECHNOLOGY

## NASA Launches International Mission 'SWOT'

- The US National Aeronautics and Space Administration (NASA) and the French space agency Centre National d'Etudes Spatiales (CNES) have launched the Surface Water and Ocean Topography (SWOT) mission.
- The objective is to track nearly all the water on Earth's surface. The mission has a lifespan of three years.
- The SWOT mission was launched through a SpaceX Falcon 9 rocket from the Space Launch Complex at Vandenberg Space Force Base in California, United States of America.
- SWOT will cover the entire Earth's surface between 78 degrees south and 78 degrees north latitude at least once every 21 days.
- The satellite will measure the height of water in freshwater bodies and the ocean on more than 90 per cent of Earth's surface.
- This information will provide insights into how the ocean influences climate change, how a warming world affects lakes, rivers and reservoirs and how communities can better prepare for disasters, such as floods.

# IMPORTANT DAYS

## International Migrants Day

- International Migrants Day is observed every year on 18 December.
- It is to recognize the important contribution of migrants and also to highlight the challenges they face.
- The UN Migration Agency defines a migrant as any person who is moving or has moved across an international border or within a State away from his/her habitual place of residence.
- The United Nations General Assembly on 04 December 2000 passed a resolution to observe 18 December as the International Migrants Day.
